Continuation of Substance of Interview including description of the general nature of what was discussed: It was noted to applicant's representative that the specification lacks antecedent basis for the claimed terminology included in claim 7 reciting "said upper and lower dies approach each other". It was thus agreed upon to amend claim 7 at lines 11-12, by deleting "making the molding surfaces of said upper and said lower dies approach each other to press said glass gob" and inserting - -pressing said glass gob by said upper and said lower dies- -.
